

What is the Wind Industry of North Dakota?

WIND, the Wind Industry of North Dakota, advocates for the continued support of wind as one of North Dakota's valuable energy resources.

We are a coalition of wind industry members and supporters who believe wind is an abundant asset in our state which should be harnessed for the continued benefit of our local communities and residents.

WHO CAN JOIN?

Membership in WIND is open to anyone who believes wind is an abundant and valuable asset for North Dakota. Any person, company or organization that has been positively impacted or anticipates they could benefit from wind projects in North Dakota are encouraged to share their support. These parties could include:

- Landowners
- Energy companies
- Education and government leaders
- Manufacturers
- Construction firms
- Supply chain firms
- Business leaders
- Wind project developers

WHAT ARE THE BENEFITS OF MEMBERSHIP?

As a member, your voice will be added to a group that supports:

- Diversifying North Dakota's energy economy
- Creating permanent jobs in manufacturing, operations and maintenance
- Providing supplemental income to farmers and ranchers
- Boosting local economies through direct tax payments – benefiting schools, infrastructure and other local projects
- Receiving updates on public policy issues important to the wind industry
